

Trencher 2D Laser

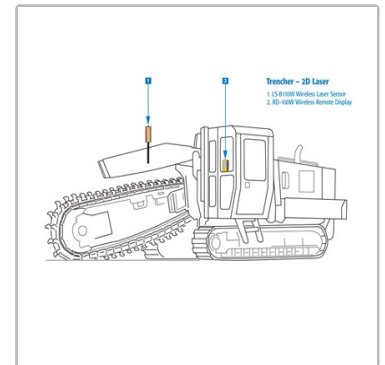

Topcon's 2D Trencher uses laser receivers to reference the teeth of the blade giving the operator constant referencing in the trench. Where 3D GPS cannot be used the 2D trencher can be utilized by setting up a laser to use for reference.

Features & Benefits:

- Avoid trenching too deep
- Fast and easy to use

LS-B10W Laser Receiver

- Small, lightweight design
- 270° detection
- Rugged, waterproof design
- Wireless support & CAN support
- Bright indicator lights
