Topcon Lasers: designed to fit personal needs

Topcon is a worldwide leading developer and manufacturer of precision positioning equipment and offers a wide selection of innovative Laser, GPS systems, Machine Control solutions and GIS products.

The current laser program is the result of a rich history in the measuring industry, a market driven R&D department and our dedication to provide you with solutions that fit your personal needs.

The Topcon laser range is far ahead of the competition in terms of functionality and quality. Topcon lasers are fast, dependable, durable, and accurate and technologies like Topcon's GreenBeam® make Topcon lasers 4 times more visible than regular lasers. The high quality components used for the production of Topcon measuring tools give us the confidence to offer a warranty period of 5 years, a very strong sales argument.

Topcon understands that in today's demanding work environment every minute downtime on a measuring tool, is a minute lost. That's why we guarantee to solve any problem; swiftly and without restrictions. Buying a Topcon Measuring tool gives you the prospect of at least 5 years of worry-free work. This new catalogue provides an overview of our product range.

It's an easy way to find the measuring tool that best fit your personal needs and budget. No matter what the application, Topcon always offers the right solution. Our goal is to provide you with right business solutions; Today, tomorrow and in the future.

Self-leveling Construction Laser

RL-H4C series – Horizontal, slope and long range capabilities in one tough package. Its super-fast self-leveling motors are accurate to 1.5 mm per 30m meaning whether you're checking grade or setting batter boards you're going to be accurate the first time. Its high-power diode means you have a 800 m diameter working radius making it a great reference

for machine mounted receivers. All of these features plus rechargeable battery operation makes the RL-H4C actually offers the functionality of three lasers in one.

RL-H4C

RL-H4C LASER	ART. NO
RL-H4C *1,2,3,4 Horizontal Construction	313650402

*1) Handreceiver: LS-80L, 2) Holder for handreceiver, 3) Batteries rechargeable, 4) Charger

RL-H4C

SELF-LEVELING CONSTRUCTION LASER

RL-H4C Package

- **LS-80L long range receiver**
 - Two way communication for height alert and laser battery status
 - 5 levels of LCD display precision
 - Extended Battery Life
 - Quick find sensor
 - “SmartClamp” adjustable rod clamp
 - Auto shut-off

LS-80L

- **RL-H4C Package**
 - Long range receiver
 - Holder for receiver
 - Tough carrying case
 - Charger
 - Battery pack

SPECIFICATIONS*	
Instrument	RL-H4C
Beam type / power	red (visible diode) / 2.0mW (max.)
Operating range (radius)	400m
Accuracy	2 mm per 30m
Self-leveling range	±5°
Rotation speed	600rpm
Power	Rechargeable battery
Battery life	approx. 60hrs
Waterproof	IP66
Dimensions / Weight	177 x 196 x 217 mm / 2,6 kg
Laser Receiver	LS-80L
Grade information channels	11 (+high/low out of range)
On-Grade precision	High precision: ±1 mm, Normal precision: ±2 mm
Audible on-grade alarm	Yes
Power	2 x AA Alkaline batteries
Battery life	Approx. 120hrs
Auto shut-off	After 30 minutes w/o beam detection

Multi-Task Slope Laser

Rugged dual slope laser with multi-task functionality – When you need a laser for horizontal, single slope, dual slope and vertical applications don't look further. The RL-SV2S high accuracy dual slope laser sets new standards for simplicity. Rugged, lightweight and compact, it's twice the laser at an amazingly affordable price!

The RL-SV2S with vertical function, large backlit high-contrast graphical display and possibilities to change grade, select menu settings, check operational status and even verify battery life, all without touching the laser.

RL-SV2S

RC-60

SLOPE LASER		ART. NO	
RL-SV2S	*1,2,3,4,5	Red Beam	313660402

● RL-SV2S – Package

- Long range receiver
- Sensor holder
- Remote control
- New tough carrying case
- Charger

RL-SV2S Package

SPECIFICATIONS*	
Instrument	RL-SV2S
H&V Accuracy	± 2.4 mm per 50 m
Self leveling range	±5 degrees
Grade settings	Dual, ±15%
Operating range (radius)	400 m
Rotating speed	300, 600 rpm
Environment	IP66
Operating time	90 hrs (Alkaline), 55 hrs (Ni-MH)
Operating temperature	-20 to 50°C
Laser class	Class 3R
Output power	2.4 mW
Laser wave length	635 nm
Laser Receiver	LS-80L
Grade information channels	11 (+high/low out of range)
On-Grade precision	High precision: ±1 mm, Normal precision: ±2 mm
Audible on-grade alarm	Yes
Power	2 x AA Alkaline batteries
Battery life	Approx. 120 hrs
Auto shut-off	After 30 minutes w/o beam detection

Slope Laser

The new standard in construction slope lasers – Topcon's RL-200 Series sets new standards for simplicity and accuracy. Rugged, lightweight, and compact, it's twice the laser at an amazingly affordable price!

Choose from two models, RL-200 1S single slope, or RL-200 2S dual slope. The RL-200 1S provides single slopes from -5% up to +25%.

The RL-200 2S provides dual slopes up to +/-10% in the X axis, or up to an industry leading -5 to +25% in the Y axis. When the RL-200 2S is operating, the RC-400 displays all operating information up to 300m away.

RL-200 2S

RC-400 Radio remote

RL-200 SLOPE LASER	ART. NO
RL-200 1S *2, 3, 4, 5 Single slope laser	314910462
RL-200 2S *1, 2, 3, 4, 5 Dual slope laser	314920433

*1) Remote control: RC-400, 2) Receiver: LS-80L, 3) Batteries Rechargeable, 4) Holder for receiver, 5) Charger

RL-200 1S

Pipe Laser

The TP-L4 series of alignment lasers offer a combination of features and technology that have proven to meet the demands of contractors more than any other alignment lasers on the market.

Whether in the trenches, over-the-top, or laser guidance in mining and tunneling, the TP-L4 is the industry standard. Available with red beam and GreenBeam®.

When combined with features like SmartLine® auto-alignment, the world's most accurate grade mechanism, power options that keep you working when other lasers have given up, it's no wonder Topcon has set the standard.

There are four TP-L4 models to choose from, which means four ways to get there from here within your budget.

TP-L4G

PIPE LASER	ART. NO
TP-L4B *1, 2, 3 Red Beam	329481211
TP-L4A *1, 2, 3 Red Beam	399481201
TP-L4BG *1, 2, 3 GreenBeam®	329481231
TP-L4G *1, 2, 3 GreenBeam®	329481221

*1) Remote control: RC-400, 2) Batteries Rechargeable, 3) Target plate

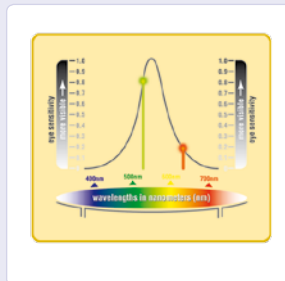

TP-L4B

PIPE LASER

Why Green? – Simple. You can see our GreenBeam® anywhere and under any conditions. It's the most visible construction laser ever! In fact, the TP-L4G GreenBeam® is four times easier to find in bright sunlight than conventional beams. So setup, grading and pipe installation is fast and easy.

● TP-L4 – Package

- 200 mm leg sets
- Carrying case
- Adjustable target
- Remote control RC-200
- NiCad battery
- Battery charger

Laser Class	Class 3R			
Waterproof depth	At least 5 m for 24 hours			
Operating temperature	-20°C to +50°C			

Machine Control Laser Receiver

LS-B100/110 Series – Advanced technology, value-priced laser receivers for dozers, scrapers, excavators, backhoes, and drag-boxes. All LS-B100/LS-B110 receivers feature simple, secure mechanical mounting, 360° beam detection, adjustable on-grade accuracy, water and dust proof cast construction, and bright multi-color LED displays.

Compatible with Topcon's family of Control Boxes for all your earth moving equipment the LS-B110 can also be used in "automatic" mode to hydraulically control the elevation and/or the slope of the cutting edge. This takes production and material savings up to a whole new level.

LS-B110

X-22 Excavator Grade Control System

The X-22 2D excavator system offers wireless grade control for any excavator. It increases quality and productivity. The system is completely wireless, fast to install, easy to use and flexible to swap between machines. The X-22 simply meets to all of you job site needs , like: flat plane, single slope, dual slope, bucket defined slope, trench, profile etc.

X-22 System

* Optional tilt bucket sensor		

2D MACHINE CONTROL SYSTEM

SPECIFICATIONS*	X-22
	Sensors (standard)
Enclosure	Polycarbonate, IP67
Dimensions	112 mm (W) x 68 mm (D) x 48 mm (H)
Weight	0.230 kg
Operating Temperature	-20°C to +60°C
Charging Temperature	0°C to +35°C
Storage Temperature	-20°C to +35°C
Operating Time	Approximately 4 weeks on one charge (approx. 200hrs)
Charging Time	Overnight
Sensor Types	Standard, Laser Receiver and Compass
	Display
Enclosure	Magnesium, IPX6
Dimensions	158 mm (W) x 158 mm (D) x 253.0 mm (H)
Weight	1.44 kg without batteries
Operating Temperature	0°C to +50°C
Storage Temperature	-20°C to +70°C
Power	12/24 Volt

Multi Purpose Rotating Laser

RL-VH4 series – Complete, dependable, durable, accurate, visible and affordable – Compact in design with integrated handle and weighing only 2,6kg, the RL-VH4DR and RL-VH4G2 are truly portable and easy to set-up.

Now you have the power to work the way you always wanted to work! The new RL-VH4 Multi Purpose lasers offer you

three power options for convenience and flexibility: Alkaline, rechargeable and AC run/charge.

The series provides up to twice as many hours of operation from one set of alkaline batteries as other lasers. Four times more visible with the GreenBeam® version. This is the power you need!

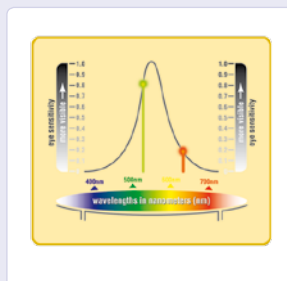

ROTATING LASER	ART. NO
RL-VH4DR *1, 2, 4, 5, 6, 7, 8	Red Beam 313750402
RL-VH4G2 *1, 3, 4, 5, 6, 7, 8	GreenBeam® 313360402

*1) Remote control: RC-40, 2) Detector: LS-80A, 3) Detector: LS-80G, 4) Batteries Rechargeable, 5) Wall mount, 6) Target plate, 7) Charger, 8) Holder for detector

MULTI PURPOSE ROTATING LASER / CROSSLINE LASER

Why Green? – Simple. You can see our GreenBeam® anywhere and under any conditions. It's the most visible construction laser ever! In fact, the RL-VH4G2 GreenBeam® is four times easier to find in bright sunlight than conventional beams.

SPECIFICATIONS*	RL-VH4DR	RL-VH4G2
Accuracy	±2 mm/20 m	±2 mm/20 m
Detecting range	300 m	300 m

RL-VH4DR Package

- **RL-VH4DR – Package**
- Magnetic ceiling target
- RC-40 remote control
- Detector
- Holder for receiver
- Rechargeable battery package
- Professional wall mount
- Carrying case

Automatic Level / Theodolite

AT-B2/AT-B3/AT-B4 – Automatic levels – Three choices... limitless applications. One thing in common: Topcon precision. All AT-B series levels feature a finely tuned magnetic damping system with a superior resistance to cold, heat and shock.

Horizontal angles can be directly read in 1° or 1gon units. Free rotation feature allows you to read any angle from zero.

With the IPX6 rating, the instrument is protected against powerful water jets from all directions, meaning the AT-B series withstands a sudden shower or torrential rainfall. The advanced protection design also deters clouding or condensation inside the telescope.

AT-B4

AUTOMATIC LEVEL	ART. NO
AT-B2 *1, 2, 3, 4	2110221A0
AT-B3 *1, 2, 3, 4	2110231A0
AT-B4 *1, 2, 3, 4	2110241A0

*1) Carrying case, 2) Plumb bob, 3) Lens cleaning cloth, 4) Weather protective bag

AT-B4

AUTOMATIC LEVEL / THEODOLITE

THEODOLITE	ART. NO

About Us

With over 80 years worth of experience in the manufacture, distribution and support of products, Topcon is well placed to offer comprehensive support to cater for all your needs.

Established in 1932, Topcon today is represented by a workforce of over 6,000. Topcon develops, manufactures, sells, and provides services for a wide range of high technology products for the capture, analysis and presentation of spatial data in the macro, micro and nano worlds.

Investment in research and development leading to innovative new solutions and products is key to the Topcon philosophy and is evident in a number of industry firsts that include the first coaxial EDM Total Stations, the GTS-1 and the unique GPT-7000i series imaging Total Stations incorporating digital cameras.

Additionally, Topcon has produced the first and only available mmGPS system, and is the first to offer a true GNSS (Global Navigation Satellite System); dual frequency, dual constellation, GPS plus GLONASS satellite receivers.

Topcon developed inertial sensors to further improve stability with fast blade movements on dozers and motor graders.

Recently Topcon introduced cloud-based management for survey and construction.
