

## Hi there,

Welcome to another regular update from Synergy Positioning Systems. It's a bumper update this month with something for everyone. Read on to get information on two unbeatable trade in deals on Topcon PS Series Robotic Total Stations and Topcon GR-5 RTK GNSS Systems. Also this month we cover UAVs in action with HEB Construction and take a look into some great NAASRA results achieved using our asphalt paving services with Higgins on Aranui Road in Auckland.

It doesn't end there however, with an article on Issac Construction in Christchurch and their use of Topcon Robotic Total Stations and information on the new Topcon C-63 indicate system for Compactors. It may be cold, dark and wet but that doesn't mean it has to be quiet!

[➤ \\$10,000 Topcon PS Series robotic total station trade in deal!](#)

### [Tripartite Conference: Rotoura 6-9th August 2014](#)

# ACHIEVING RESULTS TOGETHER

TRIPARTITE CONFERENCE ROTORUA 2014

The Synergy team will be exhibiting at the Tripartite event in Rotorua from the 6-9th of August. If you're around, make sure you come and see the team on stand 33 to see the latest in Topcon positioning products as well as other leading technologies from Synergy Positioning Systems.

We'll also be heading to some of the events surrounding the conference. I know the guys are looking forward to the "star" themed dress up night....hopefully have some pics for you in the next emailer!

## *New Product! Compactors gain efficiency with Topcon C-63*

Specifically engineered for compactors, the new Topcon C-63 indicate system is designed to precisely track compaction with minimal equipment operation.

Featuring innovative Topcon GNSS (Global Navigation Satellite Systems) technology and an intuitive to use full-colour display, the C-63 indicate system provides crucial compaction data to the machine operator in real time, helping to ensure accurate and predictable results.
