

## Hello there

Lots of excellent news to report in this digital Synergy update. First up we're excited to announce our expansion into Christchurch with the setup of a dedicated Synergy branch to open in Waltham. This will allow us to offer an increased level of service to our clients involved in the Christchurch rebuild as well as Synergy clients across the South Island.

Additionally this month, we talk about how New Zealand Steel has been putting our UAV services to use and we've got great information about how Machine Control is the must have technology of the moment with a case study on Komatsu D61 owner/operator Tim Earl. Finally, we talk about Synergy Hire - our hire service which offers significant benefits as an option for clients. So lots of good information. Jump in and I look forward to updating you again next month.

Best regards,  
Mike Milne - Synergy Managing Director.

### *Synergy Positioning Systems expands into Christchurch*

Chad Slater - Topcon Machine Control  
Christchurch, New Zealand.

Machine Control Manager Chad Slater is set to head up a dedicated Synergy Positioning Systems office in Christchurch, looking after the project requirements of Synergy Positioning's clients in both the city and throughout the South Island.

### ⏪ *Fieldays- Hamilton - June 11-14*

# Fieldays

Come and meet the team!  
Topcon Corner (K14 / F87)

**2014**  
11-14 June

It's that time of year again! Come and see the Synergy team in Hamilton on stand K14 and F87 at Fieldays 2014 for show only specials and to discuss your machine control, laser scanning and aerial mapping requirements.

See the latest developments from Topcon, FARO, DJI and C-Astral Aerospace and out how our experienced team of technical experts can help you achieve your operational goals faster and more accurately.

## Synergy Hire providing flexibility and economy

While Synergy Positioning Systems offers a comprehensive range of Topcon machine control technology for sale, the company also boasts an array of direct hire or lease options.

“Synergy Hire is a great way for smaller entities to utilise and benefit from technology designed to help them work faster and smarter, as well as for bigger companies looking to plug a gap in resource for a particular project,” says Synergy Positioning Systems sales consultant Pip Carson.
